## Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so manual testing is also encouraged.

**NAVIGATION**

⚠  Heading elements are not in a sequentially-descending order          ⌄

These are opportunities to improve keyboard navigation in your application.

**ADDITIONAL ITEMS TO MANUALLY CHECK** (10)                              Show

These items address areas which an automated testing tool cannot cover. Learn more in our guide on conducting an accessibility review.

**PASSED AUDITS** (23)                                                   Show

**NOT APPLICABLE** (33)                                                  Show
